

Phase Change Quiz Study Guide

1. Define *Endothermic*:

2. Define *Exothermic*:

3. Determine if each phase change listed below is endothermic or exothermic.

Phase Changes: Evaporation	Sublimation	Melting	Freezing
	Condensation	Boiling	

4. Endothermic	5. Exothermic

6. Define Each Phase Change in the space provided below.

Phase Change	Definition
Freezing	
Melting	
Vaporization	
Condensation	
Sublimation	

On the back of this page, list real-world examples of each phase change.
