

COMPARE AND CONTRAST: ROCK CYCLE!

Consider what you know about the rock cycle. Use the table below to demonstrate your knowledge about any 3 components of the cycle (such as the 3 types of rock, 3 methods of formation, 3 parts of Hutton's theory, etc.). Then, complete the writing prompt on the back of this page.

Main Topic		
Subtopic 1	Subtopic 2	Subtopic 3
What do these topics have in common?		
How are the subtopics different?		

Write an essay below focusing on the significance of your rock cycle subtopics from the previous page. Include the following in your writing:

- Paragraph 1: What is the rock cycle?
- Paragraph 2: How does subtopic 1 contribute to the cycle?
- Paragraph 3: How does subtopic 2 contribute to the cycle?
- Paragraph 4: How does subtopic 3 contribute to the cycle?
- Paragraph 5: Conclusion- Summarize the significance of your chosen topics.

(If needed, continue on loose-leaf paper)
